## EDUCATION

Acropolis Intitute Mangment Study and Research

2018 – 2021

Computer-Science

Manglia-Indore, MP

## COURSEWORK / SKILLS

- |              |           |             |            |
|--------------|-----------|-------------|------------|
| • NodeJS     | • MongoDB | • ExpressJs | • MySQL    |
| • JavaScript | • Git     | • Postman   | • Html-Css |

## PROJECTS

**Employee-Attendance** [🔗](#) | [Nodejs-ExpressJs-MySQL](#)

02 2024 – Present

- Developed a task management application using Node.js and Express.js.
- Implemented user authentication using JWT tokens.
- Utilized MySql for data storage and retrieval.
- Learning MySQL concurrently to enhance the project's.

**Shoper-Service** [🔗](#) | [Node.js-Express.js-MongoDB-ReactJs-Html-Css](#)

12 2023 – Present

- E-commerce venture with a product foundation.
- Implementing user authentication for secure access to the platform.
- Learning React.js concurrently to enhance the project's frontend capabilities.
- Deployed the project on MongoDB Atlas for seamless database management.
- Handled file with Multiple Components.
- [Shoper-Service Live](#) [🔗](#)

**Tech-Pub (Eicher-Parts)** [🔗](#) | [Nodejs-ExpressJs-MongoDB](#)

01 2024 – Present

- Developed a task management application using Node.js and Express.js.
- Implemented user authentication using JWT tokens.
- Utilized MongoDB for data storage and retrieval.
- Handled file with Multiple Components.

## WORK EXPERIENCE

**Technomize** [🔗](#)

02 2024 – 04 2024

*Software Engineer*

*Vijay-Nagar (Indore), MP*

- \* Designing and developing scalable backend solutions using Node.js and MongoDB.
- \* Implementing RESTful APIs for efficient data transfer and integration with front-end applications.
- \* Optimizing database schema design and query performance to enhance application speed and efficiency.
- \* Ensuring code quality and adherence to best practices through regular code reviews and refactoring.
- \* Collaborating with cross-functional teams to integrate frontend components with backend APIs and databases.
- \* Troubleshooting and debugging issues across the software stack to maintain a stable and reliable application.
- \* Staying updated with the latest developments in Node.js and MongoDB ecosystems to incorporate best practices and new features into projects.

## INTERNSHIP

**Technomize** [🔗](#)

02 2023 – 02 2024

*Enterprise Software Trainee*

*Vijay-Nagar (Indore), MP*

- \* Designed and implemented RESTful APIs for efficient data transfer and integration with front-end applications.
- \* Took part in code reviews to maintain a clean codebase, adhere to best practices, and ensure high code quality.
- \* Worked on database schema design and management, utilizing MongoDB for data storage and retrieval.
- \* Improved application performance by optimizing queries and data retrieval processes.
- \* Collaborated with front-end developers to integrate API endpoints and provide support for seamless user experiences.
- \* Participated in code reviews, ensuring adherence to code quality standards, best practices, and maintaining a clean codebase.

## TECHNICAL SKILLS

**Languages:** JavaScript,Html,Css

**Developer Tools:** VS Code,Postman,Git

**Technologies/Frameworks:**GitHub,ReactJS, NodeJS, ExpressJS, MongoDB,MySQL
